Business processes

The controls embedded in Wärtsilä's business processes play a key role in ensuring effective internal control within the company. Controls in the business processes help ensure the achievement of all the objectives of internal control within Wärtsilä, especially those related to the efficiency of operations and safeguarding the company’s profitability and reputation. The Business management is responsible for ensuring that, within its area of responsibility, the defined Group level processes and controls are implemented and complied with. Where no Group level processes and controls exist, the Business management is responsible for ensuring that efficient Business level processes with adequate controls have been defined and implemented.
